Ways we improve the day-to-day work of benefit leaders

How teams save time and focus on strategic initiatives

We take our mission to transform healthcare seriously, which is why we believe in a different approach to partnership. Our client success team is designed to serve as an extension of your benefits team—from our monthly strategy sessions, to taking on escalations, to running and synthesizing real-time reports. Our north star is working with you to build and optimize programs to keep your employees healthy.

1 Administrative lift

We become an extension of your team so you can focus on what matters most. Collective Health helps take day-to-day duties off your plate so that you have time to focus on the work that you want and need to be doing—the strategic work.

Marianne Holt, former Global Benefits Lead at Uber, cited a **60% reduction** in overall questions from members thanks to our high-touch Member Advocates.

Not only do we support the employee questions but we also take on the management of your eligibility and invoicing, acting as a true extension of your team.

HEAR FROM A REAL CLIENT

“The move to Collective Health has freed up so much of my time...I no longer have to worry about whether or not my people are getting the help they need. With the proven strength and expertise of the Member Advocates, I know my people are always well taken care of.”

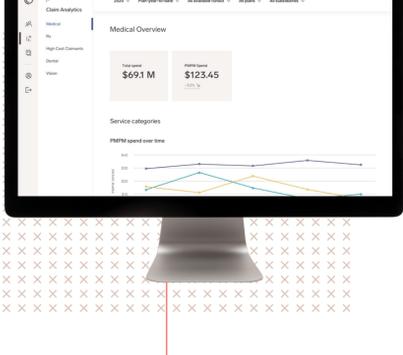

Josh Freund
Associate Director, Health & Well-being
Jazz Pharmaceuticals

2

Reporting capabilities

We arm you with data and insights that will inform your strategy—every day. Our integrated analytics and live performance dashboards give you access to your claims at any time, allowing you to see how your plans and programs impact your employees not just once or twice a year, but every day. If you need to see how your claims are trending, you have direct access through our Employer Portal. Partnering with Collective Health means gaining back valuable time in your day that you would have spent in claim review meetings.

HEAR FROM A REAL CLIENT

“Collective delivers business intelligence around our claims, cost drivers, and member engagement... that you typically don't get from traditional carriers. That information really forms the backbone for our strategy around what we should do next and why.”

Evangeline Mendiola
Director of Global Benefits
Zendesk

Opportunities to optimize your investment

We make it easy for you to streamline your health programs. We believe that clients should be able to more effectively implement, manage, and promote all of their health programs. We bring all your program partners into one ecosystem, so you can measure and benchmark the impact of your programs, in real time. At Collective Health, we equip you with the insights you need to optimize your investment—so you can spend more time making an impact on the lives of your people.

HEAR FROM A REAL CLIENT

“We used to have to wait six to eight weeks following the close of a period for financial results. Now I can track our spend in ...real-time with Collective Health, and...the reporting we receive on top of that is head and shoulders above anything I've ever seen in benefits.”

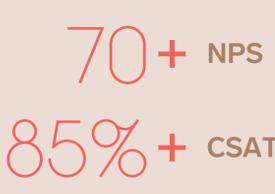

Milt Ezzard
VP Global Benefits
Activision Blizzard

BONUS!

Your members will be happy, and healthier, with Collective Health. You might even get an unsolicited “thank you!” from them along the way!

SEE WHAT WE MEAN

Imagine your new normal

Now, doesn't that sound nice?

Let's partner together

Whether it's implementing new programs, delivering data and optimizations to drive your strategy, or bringing experiences your members love, our Client Success team is here to be an extension of your team—providing support every step of the way to bring your strategy to reality.

Sarah Fitzmaurice
SVP, Client Success
Collective Health

HEAR FROM A REAL CLIENT

“From the beginning of implementation it was clear that Collective Health wasn't just a vendor, they were going to be a true strategic partner.”

Alice Vichaita
Head of Global Benefits
