

When it comes to treating obesity, one size doesn't fit all.

42%

of American adults are obese and face at least **60 comorbidities**

2×

cost for employers for people with obesity vs. at a healthy weight

1.8×

greater weight loss with tailored weight-loss medications

As obesity and related healthcare costs escalate, the demand for sustainable solutions is surging. Employers that pair weight-loss medication coverage with comprehensive behavior change support can protect employee health and contain costs.

Wondr Advanced sizes to fit.

World-class behavior change program

Participants begin their Wondr Advanced journey with skill-building, in-depth content, coaching, and community support to bolster weight loss, mindfulness, and movement.

Tailored weight-loss medication management

Our clinicians leverage the full range of medications, not just GLP-1s, to address each participant's unique weight loss journey and optimize costs.

1:1 treatment from certified obesity experts

Eligible participants receive specialized 1:1 treatment via telehealth from dietitians, nurse practitioners, and doctors certified by the American Board of Obesity Medicine.

Tracking & reporting

Ongoing tracking and reporting—from behavior change engagement and clinical adherence to health outcomes—demonstrate Wondr Advanced's impact and value.

When employees are empowered to take control of their health, their long-term weight loss will become your bottom-line savings.

Wondr Advanced is the only complete weight-loss solution

Behavioral change program integrated with rigorous clinical management empowers lasting weight loss and cost savings.

Medication Cost Savings

The right treatment combination at the right time lowers the costs of medication.

Clinical Outcomes & Savings

Weight management can reverse hypertension, diabetes, and other chronic health conditions, which translates to medical savings.

Quality of Life

Less stress and musculoskeletal pain and improved sleep, energy, mood, and self-confidence.

A legacy of results

Expert in collaborating with employers and health plans, we know how to get the measurable results you need.
